

Fidelity TITLE FORCE

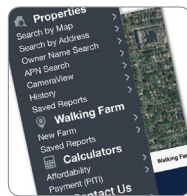

**NEW
FEATURES!**

All the Property Information You Need ... Anywhere You Need It!

UPDATE - NEW LOOK AND NEW FEATURES!

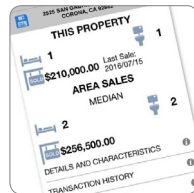

NEW LOOK! The app now loads on a map view, allowing the user to search profiles and create a Walking Farm® all from one place. Plus, a **side menu** provides easy access to navigate the app.

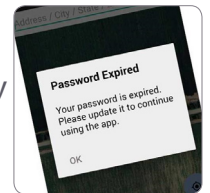

Watch **Tutorial Videos** within the app. Plus, new **Contact Support** form in the app instantly opens a ticket with Red Shed, and provides critical user details (such as device type, username, etc.) so our team can respond quickly.

FAST FACTS views feature high-level neighborhood and property details in Walking Farms®, Profiles, and Comp Sales (within a profile).

In-App Password Update: Users will be prompted when the password is expired and be able to update it directly from the app, with two easy taps!

And more ...

- "Contact Rep" feature syncs with device contacts to "add contact" to your address book
- From a profile, tapping "Payment Calculator" will pre-populate the property tax
- Settings Screen makes it easier to update the password by adding an "update" button right below the login fields
- Plus bug fixes

Contact your Fidelity Title sales executive for more information.
